

Top quality granulate for your
synthetic sports surfaces
Filler and underlay

TECHNIGOM
by ALIAPUR

Tyres collected
from car industry
professional in
your département

Granulation of the rubber by
3 industrialists authorised
to produce Technigom

Continuous traceability
at every stage

TECHNIGOM® :
CALIBRATED AND
STANDARDISED

1 – 3 mm
for loose filler

3 – 6 mm
as a shock-absorbing
underlay

Composition
known
constant
stable

**Respects
the standards**

afnor
NF 90-112

cen
EN 15330

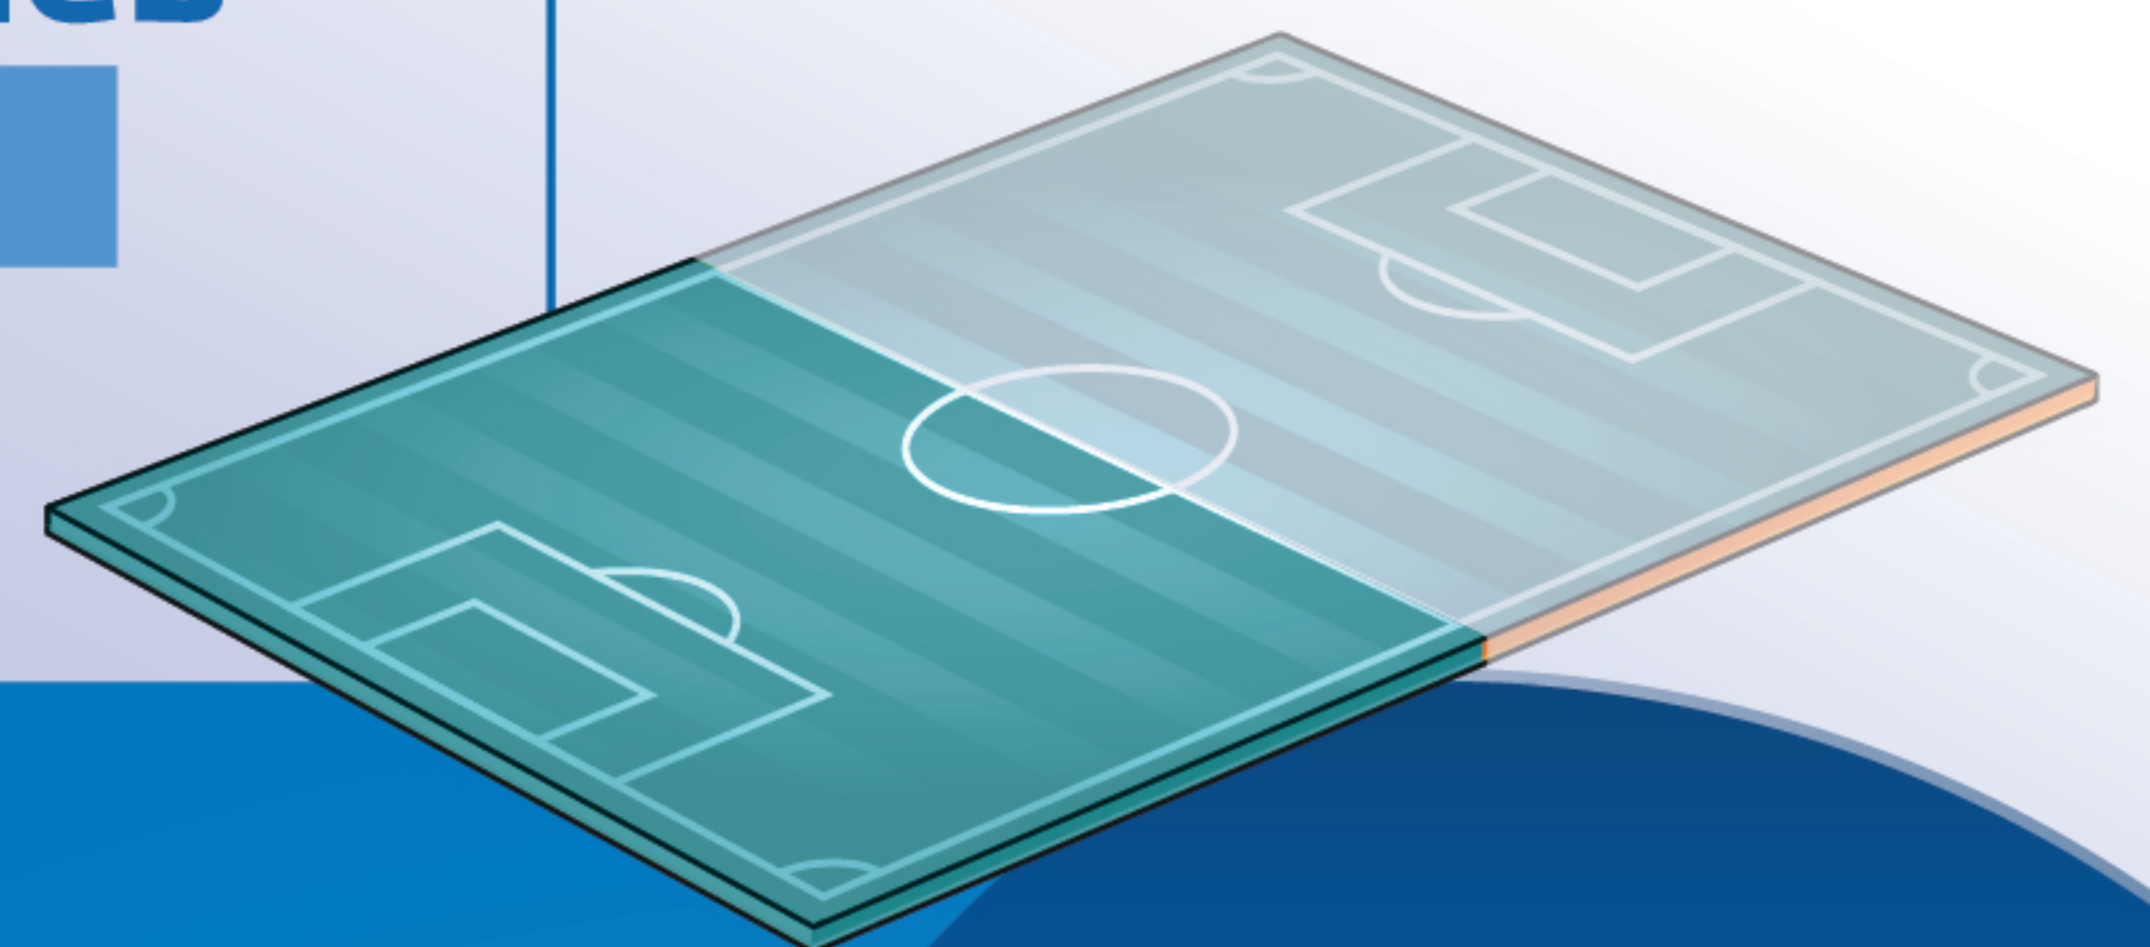

**AN ECONOMICAL
AND ECOLOGICAL
GRANULATE**

30% natural
rubber (hévéa)

**2 to 5 times
cheaper**
than other
fillers

Already equips
1 in 2 sports
surfaces in France

GUARANTEED HEALTH AND ENVIRONMENTAL SAFETY

Quality control guaranteed
by independent laboratories
Labosport | Eurofins | SGS

12 quality controls / year

67 parameters
analysed by sample

Technigom is the only
granulate that satisfies all
the ANSES* recommendations
and all the standards imposed
by the new legislation from
the European Chemicals
Agency (ECHA)**.

*Scientific note by ANSES (the French health agency) from 29 August 2018 on the possible risks linked to the use of materials obtained from the recycling of end-of-life tyres in synthetic sports surfaces and other similar uses.

**Information from the scientific committee of the ECHA from 18 September 2019, supporting the proposal to limit 8 polyaromatic hydrocarbons in the granulate used in synthetic turf and sports surfaces.
